EDUCATIONAL AND SCHOLASTIC ACHIEVEMENTS			
Program	Institute	Grade	Year
B.Tech in Information Technology	Babu Banarasi Das Northern India Institute of Technology	8.49/10	2025
Class XII (CBSE)	J.D.S International School	93.6%	2020
Class X (CBSE)	J.D.S International School	90.3%	2018
INTERNSHIP & EXPERIENCE			
MERN Stack Training ShapeMySkills July 2024	- Developed robust and scalable Full Stack application using React.js framework, MongoDB, Express.JS and Node.js. Front-End Design: Developed and enhanced user interfaces, ensuring a responsive and visually appealing design. Back-end: Learned secure authentication, API integration for web-based applications. Bug Fixing: Identified and resolved front-end bugs, improving overall website functionality and user experience.		
ACADEMIC PROJECTS			
VIDTUBE (Backend)	- Engineered a Scalable Backend – Designed a high-performance Node.js and Express.js backend with a modular MVC architecture. - Built a Robust API Ecosystem – Developed secure and efficient RESTful APIs with advanced error handling and response standardization. - Optimized Media Handling – Integrated Multer for seamless file uploads and leveraged Cloudinary for cloud storage. - Designed Efficient Data Models – Structured Mongoose schemas for users, videos, comments, likes, playlists, and subscriptions, ensuring scalability. - Implemented Secure & Configurable Environment – Managed .env configurations and enforced industry-standard coding practices with Prettier		
TaskFlow (Task management) Demo	- Built a task management app with drag-and-drop functionality to organize tasks across categories (To Do, In Progress, Completed). - Built a Kanban-style interface with React and Tailwind for task tracking. - Added responsive design and real-time updates for a smooth UX.		
PokeDexter (Web Application) Demo	- Built Pokémon viewer using HTML, CSS, JS with real-time PokéAPI data. - Improved performance with concurrent data fetch using Promise.all. - Designed responsive grid UI with type-based badges and hover effects.		
TRACE (TO-DO application) Demo	- Developed a visually appealing To-Do app with progress tracking (tasks completed/total) and persistent storage using localStorage. - Designed an engaging, responsive UI with real-time task addition, deletion, and completion toggles, optimized for smooth user interaction.		
SKILLS			
Languages & Technical	C++, C, JavaScript, Database Management systems, Data Structures and Algorithms, Object Oriented Programming, Computer Network, Operating Systems, Linux		
Web Development	HTML, CSS, Tailwind CSS, JavaScript, ReactJS, Node.js, Express.js		
Databases & Software	MySQL, MongoDB, Git, GitHub, VS Code, MS-Office		
RELEVANT COURSEWORK			
Data Analytics with Python		C Programming	Introduction to Industry 4.0 and IIOT
MongoDB Node.js Developer Path		Developing Soft Skills	Enhancing So Skills and Personality
Google Cloud Computing Foundations			
EXTRA-CURRICULARS			
- Winner of multiple debate, extempore, and discussion competitions, including the Literary Guru Trophy (2024) & Student of the Year 2025. - Part of the organizing committee for Induction, Orientation, Literary Fests, and competitions at BBDNIIT. - Competed in various literary and tech events, securing top positions in Utkarsh and other college competitions.
